

# The Weekly Post

10 August 2021

## UNITING ULTIMO

### Greetings MustardSeed People

There is a pattern in St Paul's letters. He begins with the theological stuff up front, painting vast vistas of revelation and insight. These sections can be a challenge to understand at times.

But Paul always brings things firmly back down to earth. The high flying theology is meaningless if it does not issue in very practical lessons for daily life.

In this week's section of 5 verses from Ephesians 5:15-20 we get some of Paul's precious gems about how to live well!

👉 Click this image to get to the video.
